Dear Arrowhead Member,

This letter is to notify you that on behalf of Arrowhead Cooperative, Full Sun Services (FSS) will be beginning herbicide application on your power line right of way (ROW) the week of June 16th. Due to weather and other variables, the exact start date may vary.

We will be using a targeted low volume application to control unwanted vegetation in the ROW corridor. This service helps to control the growth of woody vegetation that may grow to interrupt the power service to you and others. The targets will be taller vegetation such as Birch, Alder, and Aspen. At no time will we apply herbicide on maintained yards or where a homeowner is maintaining the ROW with other methods.

Full Sun Services maintains the proper licensing by the State of Minnesota to apply herbicide on rights of way. We follow standard practices for material handling, safety precautions, and environmental impact considerations. The herbicide selected is Garlon 3A and will be paired with Surfactant 90 to ensure optimal coverage and less drift.

This comes at no extra charge to your membership and Arrowhead has an opt out option if you wish. Please refer to the mailer that you received from Arrowhead or contact them directly for more details of the opt-out option at (218) 663-7239 or email [row@arrowhead.coop](mailto:row@arrowhead.coop).

Thank you for the opportunity to help preserve your right of way. As a local business based in Silver Bay, Full Sun Services is excited to be working with Arrowhead Cooperative and proud to serve the North Shore.

Please reach out if you have any questions or concerns by phone (218) 264-4001 or email [info@fullsunservices.com](mailto:info@fullsunservices.com).

Sincerely,

A handwritten signature in black ink that reads 'Alex R Truax'.

Alex Truax
